DETAILED ACTION

1. Applicant's Preliminary Amendment, filed on 04/08/2005, is acknowledged.

Claims 1 – 3, 6, 9 – 10, 12 – 23, and 26 – 30 are pending.

Restriction Requirement

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

- I. Claims 1 – 3 and 6, drawn to a delta tryptase polypeptide.
- II. Claims 9 – 10 and 12 – 14, drawn to a method of identifying a compound that interacts with or modulates the activity of a delta tryptase polypeptide.
- III. Claims 15 – 20, drawn to a method of diagnosing a disease state comprising the step of assaying for expression of a delta tryptase polypeptide.
- IV. Claims 21 – 23, drawn to a method of identifying an inhibitor of mast-cell mediated inflammation, comprising the steps of contacting a cell or extract with an agent and determining whether there is a change in activity of a delta tryptase polypeptide.
- V. Claims 26 – 30, drawn to a method for treating a disease, or inhibiting a mast cell-mediated inflammation in a subject, comprising the step of administering to subject a compound identified by the method of Group II or Group IV.

Art Unit: 1644

3. The inventions listed as Groups I – V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The inventions of Groups I – V are deemed to have no special technical feature that defines the contribution over the prior art of Entrez entry for locus Q9BZJ3 (1999; see entire document).

Entrez entry for locus Q9BZJ3 discloses a polypeptide sequence which is 100% identical to the instantly recited SEQ ID NO:1.

Since Applicant's inventions do not contribute a special technical feature when viewed over the prior art, they do not have a single general inventive concept and so lack unity of invention.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Species Election

4. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

If any one of Groups I – V is elected, applicant is required to elect a species wherein the delta tryptase polypeptide comprises:

Art Unit: 1644

- A. SEQ ID NO:1,
- B. SEQ ID NO:2, or
- C. SEQ ID NO:3.

These species do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features.

Applicant is required under 35 U.S.C. § 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

5. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

If any one of Groups III or V is elected, applicant is required to elect a species wherein the inflammatory disease is one selected from the group recited in claim 20.

These species do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features.

Applicant is required under 35 U.S.C. § 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

✓ Art Unit: 1644

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
